MAJORITY FOR HENDERSON WILL BE ABOUT 9,000

CHAS. HENDERSON

(Special to The Eagle.)
Montgomery, Ala., May 12.—Practically complete unofficial returns show Henderson's majority 9,000. Martin leads for Attorney General by about 20,000; Alton defeated Callahan in the eighth congressional district by six hundred. Persons has small lead over Wade for commissioner of agriculture, but the race is very close.

HENDERSON CARRIES HOUSTON

In the race for governor Charles Henderson carried Houston county by a majority of about 244 votes according to unofficial returns. The Dothan project gave Henderson 471, and Conner 369, the Troy man receiving a majority of 102 in the city balloting.

CONDITIONS ON SUNDAY

EXCURSION TO PANAMA CITY
GETTING MUCH BETTER.

Last Sunday, May 10th, was the first excursion for this season; the people who made this trip report a very nice time; large crowds and everything very quiet.

Beginning next Sunday, May 17, this train will handle a special coach, which will be the rear coach, and will be put in the very neatest, and most desirable condition possible; every seat covered with nice white covers suitable for the purpose, and will have a porter to look after the wants of the passengers. There will be sold for this coach no more than the seating capacity which assures every one a comfortable seat.

Other passengers will not be allowed to enter this car. The extra charges for seats will be only 25 cents one way or 50 cents round trip, under these conditions this could only be a very desirable day's outing to the beach.

There Can Be No Doubt About the Results in Dothan.
Results tell the tale.

All doubt is removed.
The testimony of a Dothan citizen.

Can be easily investigated.

What better proof can be had?

S. M. Brown, Sr., 712 S. St. Andrews St., Dothan, Ala., says: "I was in such bad shape from kidney disease that recovery seemed impossible. Doctors held out no hope for me. I was confined to the house over two months and was hardly able to move hand or foot. The kidney secretions painful in passage and my body was swollen twice its normal size. Death would have been my mate. A relative read of a cure Doan's Kidney Pills had made to a similar case and I tried them. After the first week, I noticed improvement. In two months, I was a well man. I will gladly answer any letters about my case that anyone may want to write me. I want to pass the good word along to just as many people as I can."

800 FEDERALES ENCAMPED NEAR VERA CRUZ AGAINST BECKER

JACK ROSE TESTIFIES VERA CRUZ AGAINST BECKER

(Special to The Eagle.)
Vera Cruz, May 12.—Lieutenant Barrett, of the aviation corps, reported today that General Navarrete has 800 federales 15 miles from Vera Cruz. Three hundred more are 6 miles beyond. General Navarrete is now in complete command of Mexicans in this district. He is a graduate of Mexican and French military schools and General Funston regards him as the most capable leader in Mexico.

Heavy firing ceased at Tampico last night. Failure of Americans wireless here to pick up messages from Huerta to his commander at Tampico indicates that the rebel artillery has smashed the wireless station there.

Mr. J. Talbot Johnson, of Aberdeen, N. C., is in the city on a short and unannounced business trip and is stopping over with his aunt, Mrs. G. M. Ward.

New York, May 12.—"Bald Jack" Rose, on whose testimony Becker was convicted at the first trial, was the chief witness for the State this morning. He was well dressed, and composed, but furtive eyed.

Rose calmly answered the State's questions when not prevented by a storm of protest from the defense's counsel. He told of paying Becker \$200 for disposing of two warrants against him, and of collecting funds for Becker from gamblers. He said Becker was a partner with Rosenthal, that the murdered man, in gambling houses.

This partnership, from which Becker wanted to withdraw, led to a breach between Rosenthal and Becker. Becker raided the place

entitled to get revenge planned to expose Becker's connection with the underworld. The witness testified that Becker then determined Rosenthal must be "crooked" and planned the assassination which was carried out by the four gunmen.

BOILER EXPLODES ON LINER AND 7 MEN KILLED

(Special to The Eagle.)
Norfolk, Va., May 12.—Seven members of the engine room crew of the Old Dominion liner Jefferson were killed by a boiler explosion off Cape Henry last night. Another man is missing, believed to have jumped overboard. Chief Engineer Pollock and two others are believed fatally scalded.

The Jefferson put in here with the dead and injured this morning. The explosion occurred at 11:20, filling boiler room with scalding steam and shaking ship from end to end. The dead men were all firemen and coal passers, some were literally cooked.

One man died later in hospital. The missing man's body was found in a corner of the engine room.

the underworld. The witness testified that Becker then determined Rosenthal must be "crooked" and planned the assassination which was carried out by the four gunmen.

CLOUDS OVERCAST MEDiation; ARE WAITING ON HUERTA

Houston May Exhibit At Birmingham Fair

(Special to The Eagle.)
Washington, May 12.—Ominous clouds overcast mediation prospects as officials wait to see what Huerta has to say to them. Gen. Luis Williams of Saltillo, if Huerta fails to do this, the only resource is believed to be the dispatch of troops across the Rio Grande. There are no indications this morning that Huerta has kept his promises.

The navy department will seek mediators for permission to open night houses on the coast road for the benefit of navigation. This adds another complication.

President Wilson took up the Mexican question immediately on his return from New York this morning.

METTING OF W. C. T. U.
A very interesting meeting of the Woman's Christian Temperance Union was held in the Foster Street Methodist Church. The temperance question was discussed with enthusiasm and papers bearing on the subject were read by the members. It is desired that a strong local chapter be built up in Dothan so that our thriving city be wanting in no good thing. To this end all good women in the city and suburbs are invited to join with us.

RELIEF SINGING

All Day Singing at Jewish Church,

GRADUATED PARISHIONERS NAME

THE MOST MEMORABLE

In the current issue of Farm and Fireside appear some interesting facts about educated farmers—men and women. The facts are quite presentable and were dug up by the United States Office of Farm Management. The information was derived from 272 farm owners and 247 farm wives.

There are many interesting stories in this set of figures, but they seem to prove that even without money, inheritance, or education, the best educated farmers make the best friends.

COMMISSIONERS ACT SLOWLY

Election for Better Public Roads Bond Issue Brought Up for Discussion, But No Action Taken.

Ignoring the recommendations of the recent grand jury, the Commissioners Court of Houston county, in session this morning, declined to call an election for a vote on the question of issuing bonds to build better public highways. The proposition, it seems, has been temporarily passed by the commissioners for future action.

Notwithstanding the fact that the grand jury made a recommendation that an election be called for the bond issue question, and that there is a strong and growing sentiment in this county favoring the issuance of bonds for improved highways, the commissioners would take no positive action in the matter.

It is understood that two of the commissioners favored calling the election while the other two opposed the project, thus putting the matter up to Chairman A. C. Crawford, who would not until the vote, but who hopes that the members may get together on the question.

A suggestion was made that petitions be put out in different parts of the county, asking the Commissioners Court to call an election, but it is claimed by some that this would be a useless delay.

Paid Wants \$200.

Members of the Southeast Alabama Fair Association appeared before the board and asked that the county donate \$500 to be given away as premiums for the best records made along agricultural and mechanical lines at the fair in Dothan this fall, but no positive action was taken in the matter. It is thought, however, that the board will consent to this proposition.

PROBLEMS FOR AIRPLANE.

A permit was issued today at the city clerk's office to Mrs. L. F.

No form of dessert is held in such high esteem as the frozen; it is the best approved and most palatable of all desserts. Dinner is only one occasion at which an ice may be appropriately served. In summer season ices are acceptable at any time and on all occasions. A frozen dessert should be left to crisp some hours before serving.

In England and on the continent of Europe, any frozen dessert is called an ice. In this country the meaning of the word "ice" is applied only to the water ices. The following is an outline of the subject ices.

I. CREAM ICES:
a. Frozen without stirring.
1. Parfait.
2. Biscuit.
3. Mousse.

b. Frozen with stirring:
1. Philadelphia (uncooked).
2. Neapolitan. (Cooked Custard.)

II. WATER ICES:
a. Sherbet.
b. Frappe.
c. Punch.

Besides these mention may be made of frozen custards, frozen puddings, etc. There are over 100 varieties of ice puddings known to French cooks.

The cost of the simple forms of these desserts is not large. If they can be prepared at home. Now that the patent freezer has reduced the time of freezing, the crushing of the ice is the only objectionable feature in the operation. For home use the canvas bag and mallet serve best. With the ice crushed and deposited in a large pail and with a sink near at hand large enough to hold the freezer and pail of ice, the freezing, packing and moulding can be done quickly.

Frosting.

...and ice of about

changed to liquids. This change requires a large amount of heat, which is absorbed from the can of mixture placed in ice and salt. By the cold thus produced the mercury will sink below zero. As the melting ice and salt are colder than the mixture of ice and salt it is a mistake to draw off salt water as fast as it is formed.

PROPORTIONS OF ICE AND SALT.

The proportion of ice to salt depends upon the texture desired in the article to be frozen. The larger the proportion of ice, the slower will be the freezing process and the smoother will be the frozen product. In freezing cream and sherberts which are to be firm and fine-grained one measure salt to five cups of water which should be coarse, three of ice is used; while in freezing only 2 measures ice to one of salt are used.

In packing a mousse or parfait which is unfrozen, use 1 measure ice to 1 of salt.

Creamy freeze in a shorter time than sherberts, the syrup which forms foundation of the sherbet regarding the process.

VANILLA CREAM. I. (Philadelphia, uncooked.)

1 qt. thin cream
3-4 cup sugar.

2-3 lbs vanilla.

Mix sugar and cream.

VANILLA CREAM. II. (Neapolitan) uncooked custard.

2 c. scalded milk.

1 tablespoon flour

1 c. sugar.

1 egg.

1-2 teaspoon salt.

1 qt. thin cream.

2 tablespoons vanilla.

Mix flour, sugar and salt, add egg slightly beaten and milk gradually; cook over hot water 20 min-

utes, stirring constantly at first;

should custard have curdled as

lemon by the following:

1. W. R. Chapman, candidate for the office of Chancellor for the Southeastern Chancery Division, this afternoon at 2 o'clock said that from what information he could procure, that he was hopeful of being elected.

Mr. Chapman had not heard from all the counties and some of his information was only partial reports, subject to change. He was much elated at receiving a telegram from Montgomery saying that his opponent, J. A. Carnley, of Elba, carried that county by only 500 majority. Mr. Chapman had feared that Montgomery county would poll a larger majority for his opponent.

(Reported to The Eagle.)
New Orleans, La., May 11.—Being denied a new trial by the Supreme Court, August Edwards, age 22, under life sentence for the murder of George W. Rehill, a married man and his sweetheart, succumbed in the parish prison this morning. The murder occurred last July. The case attracted nationwide attention. The girl claimed Rehill posed as a single man and betrayed her.
